### Abstract

Please read this paragraph carefully before preparing the abstract. It will help you to prepare the abstract as per guidelines of Engineering Frontiers 2026: First International Conference. Abstract (one paragraph only) may consist of the 1) Introduction: Outlines the research problem and its significance, 2) Methodology: Describes the research design, participants, and techniques used, 3) Results: Summarizes the findings and their significance, 4) Conclusion: Interprets the results and discusses their implications. The abstract word limit is from 150 to 250 words. Please ensure that all abstract content fits strictly within one A4-sized page with standard margins, following the guidelines provided in this template. Use three to five keywords in alphabetical order separated with comma. Keywords should ideally be phrases of 2-4 words. Abstracts not following these guidelines will be returned. It is considered that, author has read and followed all necessary guidelines before abstract submission. Also, it is assumed that all authors are aware about the necessary information about the author's ethics, plagiarism, registration, presentation and publication before the submission of the abstract. (Calibri, font size 10, line spacing 1.15). Do not disturb header and footer of this template.

### Keywords

*Alphabetically arranged, keywords, three to five*
